

As you may know we are a small animal rescue organization that specializes in taking care of the blind and handicapped cats.

At the moment we have several blind cats and 3 legged cats in our home who live together with the family. Most of them are former street cats, rescued from the street and brought in because they cannot survive on the street with their condition. In the house they all live, sleep and play together. Most of them are also available for adoption and like this we make sure that they are socialized and happy with the attention they will get from their humans.

We have little clinic where we can provide first aid and small treatments and / or after care when needed after operation. Our veterinary costs are high and we are struggling to get them paid. Here in Alanya we're also overwhelmed by the inflation just as the rest of the world. Our biggest fear is that we're not able to pay the veterinary bill, buy food or not be able to take care of the blind and handicapped cats that are living with us.

Weekly we get help requests for taking in cats or helping them with medical treatment. They have infected eyes, going blind, paralyzed or missing a leg. We try to help as much as we can but this is not so easy.

We have less, almost no support and we have serious trouble paying our vet bill. At the moment our bill is about 2.000 .- Euro. This seems not much but in our valuta it's pretty much. If we can't pay our bill we can't help cats that are in need of our help.

Therefore this scream for help WE NEED YOU !!!! Without your help our hands are tight and we can't take any more help requests.

Thank you from the bottom of our hearts
